RESUME OF ORESTES METHODIUS BAYCURA

Orestes Baycura was born in Czechoslovakia in 1923. He attended the Carnegie Institute of Technology in Pittsburgh from 1940 to 1942. He served in the United States Air Force from 1943 to 1953, and acquired Aeronautical ratings of pilot and navigator.

He returned to the Carnegie Institute in 1954 and received the Bachelor of Science Degree in Electrical Engineering in 1957.

Graduate study followed at the University of Pittsburgh, where he received the Master of Science Degree in 1959. In the same year he joined the International Business Machines Corporation and worked in the area of magnetic devices.

In 1961 he received a pre-doctoral Fellowship under the International Business Machines Corporation Resident Graduate Study Program. He returned to the University of Pittsburgh and obtained the Doctor of Science in 1963. His research, in the area of delay line compensations for non-linear systems, was under the direction of the Department Chairman, Dr. John F. Calvert.

He rejoined the International Business Machines Corporation in 1963 and worked in non-linear analysis of magnetic devices until 1966.

He joined the faculty of the Department of Electrical Engineering at the U. S. Naval Postgraduate School, Monterey, California, in July, 1966.
